## Product Update

<b>Subject:</b>	<b>DiskOnChip-GANG: Hardware &amp; Software upgrade – B2-1.23</b>		
<b>Products:</b>	DiskOnChip GANG programmer	<b>Part Number:</b>	DiskOnChip-GANGX8
<b>Update #:</b>	PU0600	<b>Date:</b>	February 22, 2000

### Description:

M-Systems announces the upgrade of the DiskOnChip GANG programmer from version B1-2.1 to B2-1.23.

### Reason for the change:

- Improved performance – 30% faster CPU
- Improved reliability, using more rugged motherboard and design
- Support for newer DiskOnChip 2000 capacities
- Support for newer DiskOnChip software being rolled out to market: TrueFFS/DOS 1.23 and TrueFFS 4.1

### Compatibility:

- The new version is compatible with all existing versions of DiskOnChip 2000 and DiskOnChip Millennium
- The new DiskOnChip GANG programmer software is compatible with older GANG programmers. To ensure compatibility with future DiskOnChip software versions, existing GANG programmers has to be upgraded to the new software version 1.23

### Key Milestones:

Starting March 15, 2000, all DiskOnChip GANG programmer shipments will be version B2-1.23.

Please contact your M-Systems' representative, or refer to M-Systems' web site ([www.m-sys.com](http://www.m-sys.com)), for any further information or guidance.
